WHY TRAIN WITH WILLIAMS MACHINERY?

Williams Machinery has served the industrial sector of British Columbia for over 100 years and has provided world-class equipment operator safety training programs to our valued customers for over 34 years.

We also offer Equipment Training Course Bundles for the warehousing and construction industries, in-class at Westerra Equipment.

IN-CLASS EQUIPMENT OPERATOR SAFETY TRAINING COURSES

Our in-class equipment operator safety training courses are designed to provide classroom theory based learning and increased hands-on learning to ensure trainees fully comprehend the equipment, application and training requirements of the course in a realistic setting. Equipment operator training certification and re-certification courses are offered for skid steer loaders, mini excavators, class 1-5 forklifts, Aerial Boom and scissor lift trucks with fall protection. We also offer "Your Site" and Group Training programs.

FORKLIFT & EQUIPMENT SAFETY TRAINING CERTIFICATIONS
